RETAIL PRICE LIST

In presenting our retail price list we do not attempt description further than to give general color effect. Emerson says: "Words are finite organs of the infinite mind. They can not cover the dimensions of what is in truth. They break, chop and impoverish it." So it is in trying to describe the wonderful tinting and gorgeous color effects of the Modern Gladiolus.

To finish our quotation: "An action is the perfection and publication of thought." THEREFORE AN ORDER WILL CONVINCE YOU THAT OUR BULBS ARE JUST RIGHT.

Variety	Color	Each	Doz.

1910 Rose and Jack London, mixed sizes, dozen35

OUR COLLECTIONS

Numbers 1, 2 and 3 are arranged for the benefit of those who wish our judgment on a selection of medium ^{price} size bulbs.

The variety L. M. Foch is a wonderful flower of solid lavender pink with blooms six inches in diameter. Only four years ago, it was selling for one dollar per bulb. Its decrease in price is due entirely to its vigorous reproductive qualities, and not to its inferiority. It is very early, producing flowers early in July if planted as early as the ground can be worked in the spring.

The variety Mr. W. H. Phipps is unquestionably the best we grow. When in full bloom it is indeed a masterpiece. No collection will be without it when the price becomes reasonable and it is better known.

TERMS—Cash with order or 25 per cent deposit until spring; prices postpaid on retail list.

STOCK IS GUARANTEED TRUE TO NAME—WE ASSUME
